The Genzyme Professorship of Experimental Medicine
Cambridge Institute of Therapeutic Immunology and Infectious Disease
Department of Medicine

23 November 2021
Job Reference: RC28801
The Genzyme Professorship of Experimental Medicine

Background to the role

The Genzyme Professorship was established in 2006 when the Genzyme Corporation made an unrestricted donation, through Cambridge in America, to support the Genzyme Professorship of Experimental Medicine within the School of Clinical Medicine. This was held by Professor Ken Smith from 2006 until 2009, and then was re-established and Professor Christoph Hess was appointed from 2018 until 2021.

This post is strategically aligned and will play a critical role in maximising the benefits from recent major developments in the Department of Medicine. As a full-time academic clinical immunologist, the appointee will support four strategic needs:

1) The Genzyme Professor will be a Principle Investigator in the new Cambridge Institute of Therapeutic Immunology and Infectious Disease (CITIID), which opened in late 2019. This new Institute is the strategic focal point for the Cambridge Biomedical Campus’s research into immunity and infection, focussing on both fundamental biology and translational opportunities associated with in-depth study of human immunology and infectious disease.

2) Cambridge has a strategic focus on research in primary immunodeficiency research. It leads the INTREPID programme, a national consortium focussed on expanding diagnosis using whole genome sequencing, detailed immune phenotyping, and novel analytic methodologies. As an academic clinical immunologist, the appointee will be central to Cambridge’s leadership in this area.

3) The Professor will play a leading role in the Addenbrooke’s Clinical Immunology Service. This major regional service has an international reputation, and the successful applicant will provide clinical support and academic leadership to it.

4) The Professor will have the opportunity to contribute to some of the key strategic partnerships of direct relevance to clinical immunology being driven by CITIID. These include collaborative programmes with both Hong Kong and Singapore, and the development of a more streamlined immune phenotyping and experimental medicine facility accessible to industry.

Standard Duties

1) Research

The applicant will lead a research group delivering an international standard of scientific research of relevance to human immunology.

2) Clinical Service

The applicant will be registerable as a Clinical Immunologist in the United Kingdom, and will have a 50% Honorary Contract with Addenbrooke’s Hospital. They will contribute to the NHS Clinical Immunology service, and it will be an advantage if they had experience in the management of both primary and secondary immune deficiency. The details of this clinical contribution will be discussed during the appointment process.

3) Teaching, Examining and Supervision

The Professor will be required to undertake teaching, examining and the supervision of graduate students, as required, and after discussion with CITIID and the Department of Medicine.

4) Administration

Administrative duties are shared equitably among the members of the Faculty. The Professors are expected to play significant roles from time to time on the Faculty Board and Faculty Committees dealing with such matters as academic and other appointments, admission of graduate students, research and teaching assessments, the libraries and computing arrangements. They are also encouraged to accept appointment to University Committees.
## Person Specification

Candidates will be considered for the Professorship on the basis of the following selection criteria, which you should address in your application.

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Essential</th>
<th>Desirable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clinically qualified with a focus on clinical immunology. Registered with the GMC or able to become registered, to practice clinical immunology in the UK and contribute to the NHS Clinical Immunology Service.</td>
<td>✔</td>
<td></td>
</tr>
<tr>
<td>An outstanding research record of international stature in immunology.</td>
<td>✔</td>
<td></td>
</tr>
<tr>
<td>The vision, leadership experience and enthusiasm to build on current strengths in maintaining and developing a leading research presence, and an established record in attracting research grant support to further this development.</td>
<td>✔</td>
<td></td>
</tr>
<tr>
<td>The ability to further the academic planning and strategic development of immunological research, focussed on the fundamental and/or translational aspects of immune biology as applied to human disease to facilitate its development in the University and, where appropriate, within the UK.</td>
<td>✔</td>
<td></td>
</tr>
<tr>
<td>The ability to manage and interact effectively with staff and students at all levels.</td>
<td>✔</td>
<td></td>
</tr>
<tr>
<td>An enthusiastic commitment to the recruitment, training and mentoring of the next generation of researchers, including undergraduates, research students, and postdoctoral research fellows</td>
<td>✔</td>
<td></td>
</tr>
<tr>
<td>Candidates will hold a PhD or equivalent postgraduate qualification.</td>
<td>✔</td>
<td></td>
</tr>

</table>
The Department of Medicine provides high quality research, teaching and patient care. Our work extends from basic biomedical research through to the clinic and is intimately linked to other scientists throughout the Cambridge Biomedical Campus, the UK and the wider internationally community. It is one of the largest Departments within the University’s School of Clinical Medicine, housing 29 Professors and over 600 directly employed members of staff and students, and currently holding research grants totalling in excess of £140m, with an annual expenditure of over £40m. The Department is closely linked to Addenbrooke’s Hospital, a major University Teaching Hospital with over 1,000 beds and a comprehensive range of regional services for the whole of the east of England. The Department also has links to the Royal Papworth Hospital which is a national leader in organ transplant.

The Department of Medicine is the largest of the departments in the School of Clinical Medicine, and is located over five floors of Addenbrooke’s Hospital, the MRC Laboratory of Molecular Biology, the Addenbrooke’s Centre for Clinical Investigation, the Cambridge Institute of Therapeutic Immunology and Infectious Disease (CITIID), and from 2022 the new Heart and Lung Research Institute (HLRI). Members of the Department also have research groups in the Cambridge Institute of Medical Research, CRUK Cambridge Institute and the Institute of Metabolic Sciences.

Research is the major focus of the Department, from fundamental biology through to disease mechanisms and clinical translation. The Department also has a major role in contributing to patient care at Addenbrooke’s and Papworth hospitals. It has direct input into 18 medical speciality areas, with two-thirds of Principal Investigators being clinically active. A number of NHS employees with active research interests are also hosted within the Department, where they hold Associate PI status. The Department is also heavily involved in clinical student education and runs successful MPhil and PhD programmes.

It therefore makes a major contribution to service delivery and education as part of Cambridge University Health Partners, and this integration is critical to its focus on improving healthcare throughout the UK and abroad.

CAMBRIDGE INSTITUTE OF THERAPEUTIC IMMUNOLOGY AND INFECTIOUS DISEASES

The Cambridge Institute of Therapeutic Immunology and Infectious Diseases (CITIID) is a new institute which will unites expert groups in infectious disease and immunity including autoimmune disease, cellular immunology and inflammatory disease (www.citiid.cam.ac.uk).

CITIID is housed in the Jeffrey Cheah Biomedical Centre on the Cambridge Biomedical Campus. This Institute benefits from proximity to the Addenbrooke’s Centre for Clinical Investigation, which provides world-class facilities for experimental medicine and early and late phase clinical studies. CITIID also incorporates the Molecular Immunity Unit embedded within the MRC Laboratory of Molecular Biology, which provides state-of-the-art facilities for the molecular dissection of immune mechanisms.
The School of Clinical Medicine

The School of Clinical Medicine currently employs nearly 3,000 people, spanning all varieties of staff type from Academic Professors to administrative support.

In 1976 in response to the recommendation of the Royal Commission on Medical Education in the late 1960’s, a complete medical course was re-established in Cambridge with the opening of the School of Clinical Medicine at the new Addenbrooke’s Hospital site.

On 21st November 1980, HRH The Duke of Edinburgh, the Chancellor of the University of Cambridge, officially opened the Clinical School Building which presently accommodates the medical library, lecture theatres and seminar rooms.

The University Of Cambridge School Of Clinical Medicine aspires to change the practice of medicine and improve biological understanding in a wide range of clinical specialties and scientific disciplines. Collaborative research, both within biomedicine and crossing the boundaries to the mathematical, physical and social sciences, is key to our approach. The School also supports key enabling technologies and facilities in imaging, bioinformatics and biological systems. The main areas of research interest are:

- Cancer research
- Cardio-Respiratory Medicine
- Cellular mechanisms of disease
- Diabetes, Endocrinology and Metabolism Epidemiology, Public Health and Primary Care Genetics and Genetic Medicine Haematological and Transplantation Medicine
- Infection and Immunity
- Neurosciences and Mental Health
- Stems Cells and Regenerative Medicine

The School aims to provide leadership in education, discovery and healthcare. It will achieve this through; inspirational teaching and training, outstanding basic and clinical research and integration of these to improve medical practice for both individual patients and the population.

The School will:

Through inspirational teaching and training, educate individuals who:

- will become exceptional doctors or biomedical scientists
- combine a depth of scientific understanding with outstanding clinical and communication skills demonstrate a caring, compassionate and professional approach to patients and the public and
- are equipped to become future international leaders of their profession.

Through its commitment to the pursuit of excellence, support scientists of international standing in basic and clinical research aiming to:

- understand fundamental biology and thereby the mechanisms underlying disease integrate basic and clinical research
- apply a rigorous mechanism-based approach to clinical problems and
- innovate to solve the health challenges of our society.
Terms of Appointment

Tenure and probation
Appointments are to the retiring age for established academic positions.

This is an integrated appointment between the University and the relevant NHS Trust/Body ("NHS Trust"). You will therefore also be issued with an Honorary Clinical Contract by the NHS Trust. You should be aware that if your contract with the NHS Trust is terminated your employment with the University will be terminated, and vice versa.

You will require GMC registration, License to Practice and Medical Defence Cover for the duration of your appointment.

Salary
Salary on appointment will be on the relevant clinical pay scales.

Working Pattern
The appointment is full-time.

Annual leave
Subject to compliance with the Statutes and Ordinances relating to leave, full time officers are entitled in any holiday year to take a minimum of 28 days annual paid holiday. These periods are inclusive of public holidays that fall outside Full Term.

Sabbatical leave
Cambridge is generous in having statutory provision for leave of absence of one term for every six terms of service. Academic staff use this opportunity for study and research.

Private Practice
University Employees who are holders of honorary clinical contracts in the National Health Service may engage in private medical practice for no more than the equivalent of one programmed activity (4 hours) each working week. The Head of the Clinical School may monitor the arrangements of Heads of Departments. Staff may elect to receive part or all of the income earned for that session; the income is administered by Cambridge University Technical services (CUTS). The fee for such private practice will be calculated after deduction of administrative and overhead costs. Income remaining after this fee has been paid will be placed in a fund or funds to be used for medical education or research administered according to arrangements approved by the Faculty Board of Clinical Medicine. Full details are given in the Private Practice Procedure, which is available on request from the Faculty Board of Clinical Medicine.

Medical Defence
All staff actively engaged in the practice of medicine are required by the University to obtain medical defence cover that is appropriate for their activities. Evidence of such membership must be produced on taking up appointment.

Pension
If you are currently a member of the National Health Service pension scheme, or have left the NHS pension scheme less than 12 months ago, and are employed in a clinical role, you are eligible to remain in or re-join the NHS
pension scheme and would therefore be auto-enrolled in to the NHS pension scheme on commencement of employment. Otherwise, you will automatically be enrolled to become a member of USS (Universities Superannuation Scheme) – a defined benefits pension scheme. Pension scheme details are available on our webpages (https://www.pensions.admin.cam.ac.uk/).

Consultancy Work
The University’s policy on consultancy work is that consultancy arrangements must be entered into privately between the employee and the organisation concerned. The consultancy work must not interfere with the duties required of the officer under the officer’s contract of employment with the University. Consultancy work is not covered by the University’s insurances, even when the University has knowledge that such work is being done. The University must not be regarded as being directly or indirectly involved in any consultancy arrangement through the use of University letterheads, advice given or work done in the individual’s capacity as an employee of the University. Individuals undertaking private or consultancy work are advised to take out personal insurance.

Alternatively, professional indemnity cover may be obtained by channelling private work through the University company Cambridge Enterprise Ltd. Anyone wishing to do so should, in the first instance, contact them at www.enterprise.cam.ac.uk.

Removal Expenses
If the person appointed is not resident in Cambridge, a contribution from University funds towards expenditure incurred in removal to Cambridge to take up a University office will be made.

General information

Pre-employment checks
Right to work in the UK - We have a legal responsibility to ensure that you have the right to work in the UK before you can start working for us. Accordingly, shortlisted candidates, whatever their nationality, will be asked to provide such evidence at an appropriate stage in the recruitment procedure. If you do not have the right to work in the UK already, any offer of employment we make will be conditional upon you gaining it.

Screening Checks
This role requires a basic disclosure/ standard Disclosure and Barring Service (DBS) Check/an enhanced Disclosure and Barring Service (DBS) check/a security check. Any offer of employment we make to you will be conditional upon the satisfactory completion of this/these check(s); whether an outcome is satisfactory will be determined by the University. The nature of this role means that the successful candidate will also need to undergo a health assessment.

Health Declaration - Offers of appointment made to prospective University officers whose
work will fall within certain categories are conditional on the completion of a medical questionnaire and, if necessary, on a satisfactory health check by the Occupational Health Service. Only the person elected will be asked to complete the questionnaire at the time of election.

References – References will be requested prior to the final meeting of the Board of Electors. 

Please note: references are not required from your current employer.

Equal Opportunities
The University of Cambridge appoints solely on merit. No applicant for an appointment in the University, or member of staff once appointed, will be treated less favourably than another on the grounds of sex (including gender reassignment), marital or parental status, race, ethnic or national origin, colour, disability (including HIV status), sexual orientation, religion, age or socio-economic factors.

Equality and Diversity
We particularly encourage women and /or candidates from a Black, Asian and Minority Ethnic background to apply for this vacancy as they are currently under-represented at this level within our University.

Information if you have a disability
The University welcomes applications from individuals with disabilities. We are committed to ensuring fair treatment throughout the recruitment process. We will make adjustments to enable applicants to compete to the best of their ability wherever it is reasonable to do so and, if successful, to assist them during their employment. Information for disabled applicants is available at https://www.hr.admin.cam.ac.uk/policies-procedures/disabled-applicants-and-members-staff

We encourage you to declare any disability that you may have, and any reasonable adjustments that you may require, in the section provided for this purpose in the application form. This will enable us to accommodate your needs throughout the process as required. However, applicants and employees may declare a disability at any time.

Applicants wishing to discuss with or inform the University of any special arrangements connected with their disability can, at any point in the recruitment process, contact, Dr Gosia Wloszycka, who is responsible for the administration of the recruitment process for this position, by email on mw425@admin.cam.ac.uk
The University

The University of Cambridge is one of the world’s oldest and most successful universities. We are a renowned centre for research, education, and scholarship that makes a significant contribution to society. The University is consistently ranked amongst the top universities in the world. Our affiliates have won more Nobel Prizes than any other University.

Our sustained pursuit of academic excellence is built on a long history of first-class teaching and research within a distinctive collegiate system. For eight centuries our ideas and innovations have shaped the world. Our principal goal is to remain one of the world’s leading universities in an increasingly competitive global higher education sector. Today the University of Cambridge is at the centre of a cluster of over 4,300 businesses employing 58,000 people.

Our capital investment projects include the West Cambridge site, the North West Cambridge development and the growth of the Biomedical Campus in the south of the city. The North West Cambridge development includes the opening of a primary school – the first in the UK to be managed by a University. So we are deeply embedded in, and committed to serving, our local community. These are all conspicuous signs of a University that is not only adapting to new needs, but also anticipating the future.

Our mission is to contribute to society through the pursuit of education, learning, and research at the highest international levels of excellence. Our core values are:

- freedom of thought and expression; and
- freedom from discrimination.
About Us

The University is one of the world's leading academic centres. It comprises 150 faculties and departments, together with a central administration and other institutions. Our institutions, museums and collections are a world-class resource for researchers, students and members of the public representing one of the country's highest concentrations of internationally important collections.

The University has an annual income of £2 billion. Research income, won competitively from the UK Research Councils, the European Union (EU), major charities and industry, exceeds £500 million per annum and continues to grow.

The Colleges and the University remain committed to admitting the best students regardless of their background and to investing considerable resources both in widening access and financial support. The 31 Colleges are self-governing, separate legal entities which appoint their own staff. Many academic staff are invited to join a College as a Teaching Fellow, which provides a further social and intellectual dimension. The Colleges admit students, provide student accommodation and deliver small group teaching.

The University awards degrees and its faculties and departments provide lectures and seminars for students and determine the syllabi for teaching and conducting research.

Our instinct for seeking out excellence and setting up enduring and mutually beneficial collaborations has led us to establish strategic partnerships across the globe. Whether it is the successful Cambridge-Africa Programme involving universities in Ghana, Uganda and elsewhere on the African continent; or the close association with the government of India to pursue new research in crop science; or the creation, with Germany's Max Planck Institutes, of a Cambridge-based centre for the study of ethics, human economy and social change – international partnerships are now an inextricable part of the University’s make-up.

“Cambridge graduates and researchers have made – and continue to make – a colossal contribution to human knowledge and the understanding of the world around us. Their work touches on the lives and livelihoods of everyone from patients diagnosed with life-threatening diseases, to residents of areas critically affected by climate change, to children growing up in conflict zones. It has a lasting impact on our society, our economy and our culture: the world is truly a better place thanks to their efforts.”

Stephen Toope, Vice Chancellor 2019
Working at the University

Working at Cambridge you will join a diverse, talented and innovative community, with more than 18,000 students and over 16,000 staff from all walks of life and corners of the world.

The University continually explores strategies to attract and retain the best people. It is committed to supporting its staff to achieve their best. We are a fair, diverse and inclusive society and we believe our staff are our greatest asset. There is strong commitment to developing institutional leadership and supporting and encouraging staff development at all levels.

We offer a variety of roles including academic, research, professional, managerial and support roles. We also offer extensive benefits and excellent learning opportunities within a stimulating working environment.

The University’s estate is undergoing the most significant transformation in its history. Cambridge has been able to create a new science and technology campus to the west of the city centre, and is now expanding further to the north west of Cambridge including investing in affordable homes for University key workers and community facilities. Even with our continued development, the University remains within walking or cycling distance across the campus. The University is a major partner on the Cambridge Biomedical Campus and we continue to redevelop our historic city centre sites demonstrating our determination to ensure that we can offer the best facilities and opportunities for our staff and students.

Equality & diversity

The University has built its excellence on the diversity of its staff and student community. We aim to be a leader in fostering equality and inclusion, and in promoting respect and a sense of belonging for all. We encourage applications from all sections of society. All appointments are made on the basis of merit. We have an Equal Opportunities Policy, along with a range of diversity networks for women, black and minority ethnic and lesbian, gay, bisexual and transgender staff. More details are available here: [http://www.equality.admin.cam.ac.uk/](http://www.equality.admin.cam.ac.uk/)

The University has a bronze Race Equality Charter aware, with framework for improving the representation, progression and success of minority ethnic staff and students within higher education. Furthermore, the University’s Athena SWAN award recognises and celebrates good practice in recruiting, retaining and promoting women.
Living in Cambridge

Cambridge is rich in cultural diversity. From beautiful University and College buildings, museums and art galleries, quaint gardens and punts on the River Cam, to a vibrant restaurant and café scene, our employees are surrounded by the wonderful features of this unique city.

You can find a wide-range of high street shops and 3 shopping centres, with independent alternatives at the historic market and nestled within the passageways in the city centre. You will find a cinema, bowling alley, a nightclub and various live performances At the Cambridge Leisure Park, with further entertainment options at the Corn Exchange, Arts Theatre and the ADC Theatre. Further information can be found on the Visit Cambridge website.

If you prefer the faster pace of life, London is a 45 minute train journey away. For those travelling from overseas, Stansted Airport is just 45 minutes away and Heathrow Airport under 2 hours away. The University is a short distance from a host of other attractions such as Ely Cathedral, Newmarket Races and various wildlife parks and stately homes. Cambridge is also within easy reach of the beautiful Broads and coastlines of Norfolk and Suffolk.

Relocation Support
The University recognises the importance of helping individuals to move and settle into a new area. We provide support and guidance to those relocating internationally or domestically to take up a post at the University of Cambridge, liaising with other University offices and selected partners to ensure comprehensive relocation support is available. This includes: accommodation, childcare, schools, banking, immigration and transport. If you would like further information, please visit https://www.accommodation.cam.ac.uk/relocation. The Shared Equity Scheme and the Reimbursement of Relocation Expenses Scheme provide financial assistance to qualifying new members of staff with the costs of relocating to Cambridge.

Accommodation Service
The University Accommodation Service helps staff, students and visiting scholars who are affiliated to the University in their search for suitable accommodation in Cambridge. The dedicated accommodation team can provide access to a wide range of University-owned furnished and unfurnished properties, and has a database of private sector accommodation available for short and long-term lets. For further information and to register with this free service please visit https://www.accommodation.cam.ac.uk/
What Cambridge can offer

We offer a comprehensive reward package to attract, motivate and retain high performing staff at all levels and in all areas of work.

The University offers a wide range of competitive benefits, from family leave entitlement, to shopping and travel discount schemes. Our generous annual leave package contributes to the positive wellbeing of our University employees. Sabbatical leave enables academics to focus on research and scholarship, whilst still maintaining their full salary. The University also has a career break scheme for academic and academic-related staff, with additional flexible working policies for all other staff.

Pay and benefits
The University salary structure includes automatic service-related pay progression in many of its grades and an annual cost of living increase. In addition to this, employees are rewarded for outstanding contribution through a number of regular pay progression schemes. The University offers attractive pensions schemes for employees, with an additional benefit of a salary exchange arrangement providing tax and national insurance savings. Payroll giving is also a simple, tax-efficient way for employees to make monthly donations to charity.

CAMbens employee benefits
We offer a CAMbens scheme for University employees, providing access to online and in-store shopping discounts and cashback. With more than 2,000 participating retailers, employees can save money on a wide range of household expenses, from groceries and clothes, to holidays and insurance and much more. A range of local discounts are also available, helping employees to save money whilst also supporting local Cambridge businesses and a CAMbens Cycle to Work salary sacrifice scheme is also available, which enables employees to save money on transport costs. A 10% discount rate on the purchase of train season tickets, bulk buy tickets and an interest free travel to work loan are also available for staff of the University.
What Cambridge can offer

**Family-friendly policies**
The University recognises the importance of supporting its staff. We have a range of family-friendly policies to aid employees’ work-life balance including a generous maternity, adoption and shared parental leave entitlement of 18 weeks full pay, and paid emergency leave for parents and carers.

Other family-friendly support includes:

Our highly regarded workplace nurseries, a childcare salary exchange scheme and a high quality holiday Playscheme may be available to help support University employees with caring responsibilities (subject to demand and qualifying criteria). Further childcare information can be found here: https://www.childcare.admin.cam.ac.uk/

The Newcomers and Visiting Scholars Group is an organisation within the University run by volunteers whose aim is to help newly arrived wives, husbands, partners and families of Visiting Scholars and members of the University to settle in Cambridge and give them an opportunity to meet local people. The Postdoc Academy supports the postdoctoral community within Cambridge. Further details are available here: https://www.postdocacademy.cam.ac.uk/

**Your wellbeing**
The University’s Sport Centre, Counselling Services and Occupational Health are just some of the support services available to University employees to promote their physical and mental wellbeing. There are many societies in Cambridge catering for almost every taste and interest. Whether you want to take part in a sport, participate in music or drama, pursue a hobby, or join a political group, you will almost certainly find that a society exists for this purpose. The University also hosts the Cambridge Science Festival and Cambridge Festival of Ideas, as well as Open Cambridge weekend, which together attract over 50,000 visitors per year. The festivals are a great opportunity to get your first taste of public engagement, through volunteering, supporting hands-on activities or proposing a talk.

**Development opportunities**
We support new employees to settle in through various activities. The encouragement of career development for all staff is one of the University’s values and we put this into practice through various services and initiatives. Our Personal and Professional Development Department provides development opportunities and courses for all University employees. These include face-to-face sessions, online learning modules and webinars. Employees may also apply for financial support to undertake training that will lead to a qualification. We offer reduced staff fees for University of Cambridge graduate courses and the opportunity to attend lectures and seminars held by University departments and institutions. The CareerStart@Cam programme also supports employees in assistant staff roles who do not hold higher education qualifications to develop their skills, experience and qualifications.
How to Apply

Applications, consisting of a letter of application together with a statement of current and future research plans, a curriculum vitae and a publications list, should be made online no later than: 23 November 2021.

Applications should be submitted online via the University of Cambridge jobs page www.jobs.cam.ac.uk by clicking “Apply online” in the job advert. You will need an email address to register for our online system.

Conversations about flexible working are encouraged at the University of Cambridge. Please feel free to discuss flexibility prior to applying (using the contact information below) or at interview if your application is successful.

If you have any queries regarding the application process please contact: Dr Gosia Wloszycka at: professorships@admin.cam.ac.uk and/or mw425@admin.cam.ac.uk

Appointment Procedure

The appointment will be made by a Board of Electors, chaired by the Vice-Chancellor or his Deputy, with a membership which includes members of the Department, members of cognate Departments and external experts.

All applications will be acknowledged. The Board of Electors will decide how they wish to proceed towards making an election, which may include interviews and/or presentations. Short-listed candidates may be invited to visit the Department to give a seminar on their work and meet prospective colleagues in the course of the process.

Candidates will be informed of the progress of their applications as agreed by the Electors.

It is anticipated that the successful candidate will take up the appointment as soon as possible thereafter, on a date to be agreed with the Board of Electors.

Informal Enquiries

Informal enquiries about this Professorship are welcomed and should be directed to:
