

THE PROFESSORSHIP OF PSYCHOLOGY IN THE SOCIAL SCIENCES

DEPARTMENT OF PSYCHOLOGY

1 The Professorship

Background

The establishment of a Professorship of Psychology in the Social Sciences was approved by the General Board of the University in October 2000, and was then associated with the Headship of the Department of Social and Developmental Psychology. The incumbent was expected to have “a substantial research programme in either social or developmental psychology”. In 2012 the Department merged with the Department of Experimental Psychology to become the new Department of Psychology within the School of Biological Sciences. The vacant position has now become one of only three established Professorships in the Department, with the others being the 1931 Professor of Experimental Psychology (currently held by Mark Johnson) and the Professor of Family Research (currently held by Susan Golombok). The previous holders of the Professorship of Psychology in Social Sciences are highly distinguished: Professors Anthony Manstead (to 2003) and Michael Lamb (to 2018). While the position does not require the incumbent to become Head of Department, a role in the senior leadership of the Department is expected and desired.

Selection Criteria

Candidates will be considered for the Professorship on the basis of the following selection criteria, which they should address in their application.

- An outstanding research record of international stature in social or developmental psychology, potentially including genetic or neuroscience-based approaches to these topics
- The vision, leadership experience and enthusiasm to build on current strengths in maintaining and developing a leading research presence, and an established record in attracting substantive research grant support to further this development.
- The ability to further the academic planning and strategic development of Psychology in the University and, where appropriate, to facilitate its development within the UK.

- The ability to manage and interact effectively with staff and students at all levels.
- An enthusiastic commitment to the recruitment, training and mentoring of the next generation of researchers, including undergraduates, research students, and postdoctoral research fellows

Candidates will hold a PhD or equivalent postgraduate qualification.

2 The Department of Psychology

The Department of Experimental Psychology (one of the oldest psychology departments in the country) merged with the Department of Social and Developmental Psychology in 2012 to create a new larger Department of Psychology, and now has interests covering the full breadth of Psychology. It is not a large Department as measured by the number of University Teaching Officers (24), but it accommodates many Research Fellows, Post-Doctoral Research Scientists and Postgraduate Research Students within a number of world-class research groups. Members of the Department teach on a number of undergraduate courses and there is a thriving postgraduate student community. The Department is celebrated for its teaching; students are taught by researchers of international excellence and many of its past students have gone on to prominent positions in psychology and related fields throughout the world.

The Department is frequently rated in the top three world-wide for its research and teaching. Research staff include University Teaching Officers (Lecturers, Readers, and Professors), Postdoctoral Research Associates, Research Assistants, Laboratory Staff and Graduate Students conducting psychological and neuroscientific research into topics including sensory perception, attention, memory, language, cognitive development, psychopathology, computational models of psychological processes, associative learning, animal cognition and behaviour, drug addiction, family and gender, forensic psychology, new human genetics and assisted reproductive technologies, new information technologies, social cognition, social perception and personality, children's developing social understanding and relationships, social representations, judgment and decision-making, biological influences on development and behaviour, expression of personality in ideology and music, social and political attitudes and applied developmental psychology.

Facilities for research in human perception and cognition are excellent and includes access to cognitive neuroscience facilities, including 3 and 7T magnets and human electrophysiological and psychophysiological measurement, including magnetoencephalography. Excellent infant and child testing lab facilities are also available.

For more details relating to the Department of Psychology www.psychol.cam.ac.uk

3 Standard Duties

Teaching and research

The Professor will be required to deliver lectures and give instruction in topics related to their expertise and in particular to perform the following duties:

- (i) to lecture, or hold classes, and to give lectures or classes as requested by the Head of Department or their Deputy, and based on an equitable workload model
- (ii) to undertake original work and the general supervision of research and advanced work in his/her subject and Faculty/Department, and to assist students in their studies by supervision or informal instruction.

Examining

The Professor will be required to undertake such university examining as may be required by the relevant Faculty Board, Head of Department or comparable body.

Supervision

The Professor will be required to act as the supervisor of graduate students as and when requested.

Administration

Administrative duties are shared equitably among the teaching members of the Faculty. The Professors are expected to play significant roles from time to time on the Faculty Board and Faculty Committees dealing with such matters as academic and other appointments, admission of graduate students, research and teaching assessments, the libraries and computing arrangements. They are also encouraged to accept appointment to University Committees. The incumbent should expect to take a leadership role within the department.

4 The Colleges

The University, the Faculties and Departments, and the Colleges are linked in a complicated historical relationship that is mutually beneficial but not simple. Students (both graduate and undergraduate) are admitted by one of the 31 Colleges, although in the case of graduate students the Faculties and Departments determine admissions before the Colleges are involved. Almost all undergraduates, and many graduate students, live in a College. The teaching of undergraduate students is shared between the Colleges and the Faculties and Departments, with the Colleges arranging small group teaching ("supervision") and the Departments providing lecturing, laboratory classes, and advanced supervisions. Most academic staff will also be invited to join a College as a teaching or professorial fellow. College teaching is remunerated separately from the University teaching, and appointment to a College is a separate matter from a University appointment. Membership of a College adds an important social and intellectual dimension for many of the

academic staff. The Chair of the Faculty/Head of Department or senior colleagues can give more advice.

The Scheme for newly-appointed University Officers seeking a College Fellowship is set out at:

<https://www.ois.cam.ac.uk/uto-scheme/guidance-for-applicants/view>

5 Procedure for Appointment

The appointment will be made by a Board of Electors, chaired by the Vice-Chancellor or his Deputy, with a membership which includes members of the Department, members of cognate Departments and external experts.

All applications will be acknowledged. The Board of Electors will decide how they wish to proceed towards making an election, which may include interviews and/or presentations. Short-listed candidates may be invited to visit the Department to give a seminar on their work and meet prospective colleagues in the course of the process.

Candidates will be informed of the progress of their applications as agreed by the Electors.

It is anticipated that the successful candidate will take up the appointment in October 2019 or as soon as possible thereafter.

6 Enquiries and Applications

Informal enquiries about this Professorship may be directed to Professor Mark Johnson, Head of the Department of Psychology, Cambridge, telephone +44 (0)1223 330680 or email mj492@cam.ac.uk.

Further information on the University is available at the following address:
www.cam.ac.uk.

Applications, consisting of a letter of application together with a statement of current and future research plans, a curriculum vitae and a publications list, should be made online no later than **4 February 2019**.

If you are unable to apply online, please contact the Human Resources, University Offices, The Old Schools, Cambridge, CB2 1TT (email ibise@admin.cam.ac.uk).

GENERAL INFORMATION

All appointments to University Offices are subject to the Statutes and Ordinances of the University.

A Salary

Salary on appointment will be determined by the Vice-Chancellor at the appropriate point on the University's salary spine for grade 12, taking account of the criteria for the respective contribution band. Professorial salaries are reviewed periodically, on the basis of research, teaching and general contribution, by the Vice-Chancellor with the assistance of a small Advisory Committee.

There is a normal sabbatical entitlement of one term in seven on full pay, subject to the University regulations.

B Headship of the Department

Should a Professor be appointed to the Headship of a Department, a pensionable payment in addition to salary is made.

C Recruitment Incentive

The University has a scheme whereby a single recruitment incentive payment may be made on appointment at the Vice-Chancellor's discretion.

D Removal Expenses

If the person appointed is not resident in Cambridge, a contribution from University funds towards expenditure incurred in removal to Cambridge to take up a University office will be made.

E Consultancy Work

The University's policy on consultancy work is that consultancy arrangements must be entered into privately between the employee and the organisation concerned. The consultancy work must not interfere with the duties required of the officer under the officer's contract of employment with the University. Consultancy work is not covered by the University's insurances, even when the University has knowledge that such work is being done. The University must not be regarded as being directly or indirectly involved in any consultancy arrangement through the use of University letterheads, advice given or work done in the individual's capacity as an employee of the University. Individuals undertaking private or consultancy work are advised to take out personal insurance.

Alternatively, professional indemnity cover may be obtained by channelling private work through the University company Cambridge Enterprise Ltd. Anyone wishing to do so should, in the first instance, contact Cambridge Enterprise at www.enterprise.cam.ac.uk.

F Professorial Fellowships

The great majority of Professors at Cambridge hold a professorial fellowship of a college. Although election to a fellowship is a matter for an individual college, the University takes active steps to draw to the attention of Heads of House the names of those Professors eligible for election. The Scheme for newly-appointed University Officers seeking a College Fellowship is set out at: <https://www.ois.cam.ac.uk/uto-scheme/guidance-for-applicants/view>

In seeking the views of referees, their permission will be sought for the release of their comments on the successful candidate if it were to be requested by the professorial fellowship electors of a college.

G Health screening on appointment to University Office and in the case of University Officers undertaking a change of duties

Offers of appointment made to prospective University officers whose work will fall within certain categories are conditional on the completion of a medical questionnaire and, if necessary, on a satisfactory health check by the Occupational Health Service.

Only the person elected will be asked to complete the questionnaire at the time of election.

H Family friendly policies and benefits

The University has a range of family friendly policies to aid employee's work-life balance including maternity, paternity and parental leave, flexible working and career break schemes. In addition, childcare vouchers, access to two nurseries and a holiday play scheme are available through the Childcare Office to help support University employees with childcare responsibilities. Further information can be found at:

<http://www.admin.cam.ac.uk/offices/hr/staff/benefits/family.html>

I Eligibility to work and reside in the UK

UK immigration procedures stipulate that an employer may not consider the appointment of any person unless they have seen evidence of their immigration status. Accordingly, shortlisted candidates, whatever their nationality, will be asked to provide such evidence at an appropriate stage in the recruitment procedure.

J Equal Opportunities Information

The University of Cambridge appoints solely on merit. No applicant for an appointment in the University, or member of staff once appointed, will be treated less favourably than another on the grounds of sex (including gender reassignment), marital or parental status, race, ethnic or national origin, colour, disability (including HIV status), sexual orientation, religion, age or socio-economic factors.

K Information if you have a Disability

The University welcomes applications from individuals with disabilities. Our recruitment and selection procedures follow best practice and comply with disability legislation.

The University is committed to ensuring that applicants with disabilities receive fair treatment throughout the recruitment process. Adjustments will be made, wherever reasonable to do so, to enable applicants to compete to the best of their ability and, if successful, to assist them during their employment. We encourage applicants to declare their disabilities in order that any special arrangements, particularly for the selection process, can be accommodated. Applicants or employees can declare a disability at any time.

Applicants wishing to discuss with or inform the University of any special arrangements connected with their disability can, at any point in the recruitment process, contact, Dr Gosia Wloszycka, who is responsible for the administration of the recruitment process for this position, by email on mw425@admin.cam.ac.uk
